OUR VEGAN DISHES

We at BananaTree have been working tirelessly to incorporate more 'non-meat' dishes into our menu and as a result we have developed a new range of delicious vegan dishes. Chef William Chow, our founder/Executive Chef has been keen to get more people to consume less meat in order to 'do our bit' for the environment and the world. We hope that you and all the carnivores venturing into this form of eating will realise that vegan food does not have to be bland and unexciting! So, if you are indeed a meat eater and would like to eat less of it, this is the place to start, a little at a time!! All our vegan dishes use only plant based ingredients and nothing else!

Vegan Bites: deliciously 'high protein' soya nuggets seasoned with special spices with a delightful and satisfying texture. **Tofu**: our tofu has been lightly fried to intensify its flavour and texture making it ideal for absorbing our delicious sauces. **Vegan Satay**: marinated skewers of soya protein nuggets with a delicious aromatic flavour.

Vegan Dishes

Please note that although vegan bites are 100% vegan, they have a very similar appearance, texture and taste to chicken.
